

An introduction of VDEZIN...

 *deZin[®] Technologies*

About VDEZIN

VDEZIN is a fast growing Hyderabad-based technology company that offers competitive services in

- Consulting
- Technology
- Outsourcing

Our mission is to provide value-added and differentiated solutions across diverse industries such as telecom, financial services, pharmaceuticals, government, consumer services and emerging businesses.

Vision

- VDEZIN aims to provide high quality services and solutions from India to the English speaking world.
- To provide state-of-the-art technology coupled with a team of well-trained professionals to provide premier service level.
- Our Firm is committed to adhere to the highest standards of quality in all it's processes and commitments, encouraging at all times the partnering approach with clients, and maintaining integrity and leadership in what we offer. The firm believes in sharing its resources and earnings with its employees and the community.

Why VDEZIN

Personal Growth

We nurture personal growth for our people by creating a challenging environment with opportunities to learn and develop to become tomorrow's leaders. Recruiting and retaining people, who are properly trained, motivated and share a common vision based upon their goals and commitments ensures we are the best in the industry.

Honesty

We build lasting relationships with our clients, employees, and partners through open and honest communications. We earn trust and respect through integrity in all our actions.

Confidentiality

We guarantee a high degree of confidentiality and security in every project. All clients' information remains strictly confidential. VDEZIN will never sell or disclose any client information under any unauthorized circumstances

Why VDEZIN

Client Focus

We listen to clients. Understand Clients Objectives and Needs. We find solutions to meet or exceed clients needs.

On-time delivery

Thanks to our experienced, talented programmers, testing tools, And effective project management. We can implement and deliver your projects on time.

Our People

The quality and passion of our people sets us apart. We hire and retain only the highest quality people who fit with our open and client focused culture and values. Our people are committed to our clients projects and their growth. Our low rate of attrition tells our story.

Why VDEZIN

Quality

We have developed a repeatable, effective software development process based upon ISO Standards ensures the high quality of service and successful delivery to our global clients. All processes are well documented, institutionalized and evaluated, ensuring us becoming more effective and efficient with each project we work on.

Continuous Improvement

Regular training in key development technologies, software engineering practices, management methods, QA standards, R&D on new technology products, conducting architecture workshops, continually evaluating our own processes and methodology, mentoring tech leads to meet the requirements for changing technology and improving team capabilities.
